PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1994) 51, 463–470
© Longman Group Ltd 1994

Subject Index to Volume 51

A

Acetylcholine: prostaglandin E_2 inhibits release from cholinergic nerves in canine but not equine airways, 347
Adult respiratory distress syndrome: inhibitory effect of prostaglandin E_1 on human neutrophil function, 287
Airway
  effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
  inhibitory effect of ONO-1078 on specific binding of peptide leukotrienes of human lung crude membrane, 163
  pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
  prostaglandin E_2 inhibits acetylcholine release from cholinergic nerves in canine but not equine airways, 347
Alpha-linolenic acid (ALA): relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
Amniotic fluid: immunohistologic detection of non-pancreatic phospholipase A_2 (Type II) in human placenta and its possible involvement in normal parturition at term, 19
Anaesthesia: spinal cord blood flow during prostaglandin E_1-induced hypotension, 173
Apoptosis: differential cytotoxic effects of gamma-linolenic acid on MG-63 and HeLa cells, 109
Aquatic invertebrates, eicosanoid biosynthesis and bioactivity in, 215
Arachidonic acid (AA)
  AA metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
  effects of exogenous and endogenous prostaglandins on the fast phase of contraction of the guinea-pig vas deferens produced by electrical field stimulation, 57
  effects of n-3 polyunsaturated fatty acids on reacylation of AA in peritoneal macrophages, 235
  highly purified guinea-pig type II pneumocytes have the leukotriene A_4 hydrolase but do not express 5-lipoxygenase activity, 263
  influence of various doses of aspirin (in vivo) on platelet AA metabolism (ex vivo) and function, 63
  liver lipoxygenase AA metabolites in streptozotocin-induced diabetes in rats, 411
  oxytocin-prostaglandin interactions during the rat oestrus cycle, 133
  relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
  vitamin E deficiency increases serum thromboxane A_2 platelet AA and lipid peroxidation in male Sprague-Dawley rats, 11
Arginine vasopressin (AVP)
  cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
  prostaglandin $F_{2\alpha}$ modulates responses of single cultured mesangial cells to AVP, 195
Aspirin
  influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
  salicylamide reverses the aspirin-antagonistic effect of salicylic acid on rat platelet cyclooxygenase, 363
Asthma
  effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
  inhibitory effect of ONO-1078 on specific binding of peptide leukotrienes to human lung crude membrane, 163
  pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
Atherosclerosis
  long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
  modulation of the transcellular metabolism of 12 (S) HETE by 10–11 reductase activity in cultured rat aortic smooth muscle cells, 187
  prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
Autoimmune disease: beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus and its relationship to cytokines, 207

B

Blood pressure
  inhaled nitric oxide counterbalances platelet-activating factor-induced pulmonary hypertension in pigs, 357
  relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
  spinal cord blood flow during prostaglandin E_1-induced hypotension, 173
Bone: effect of vitamin D_3 on prostaglandin E_2 synthesis in osteoblast-like cells, 27
Bradykinin, effects of etodolac on, 457
Brain
  effect of chronic REM sleep deprivation on pituitary hypothalamus and hippocampus PGE_2 and PGD_2 biosynthesis in the mouse, 369
  effects of prostaglandin D_2 lipoxins and leukotrienes on sleep and brain temperature of rats, 87
Bronchoconstriction
  inhibitory effect of ONO-1078 on specific binding of peptide leukotrienes to human lung crude membrane, 163
  pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
  prostaglandin E_2 inhibits acetylcholine release from cholinergic nerves in canine but not equine airways, 347

C

Cachexia, cancer: comparison of the free acid or ethyl ester of eicosapentaenoic acid as an anticachectic and antitumour agent, 141
Caffeic acid, oxidation kinetics of, 337
Caffeine: effect on prostaglandin output from the perfused mesenteric vascular bed of the rat, 415
Calcium
- cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
- inhibitory effect of prostaglandin E_1 on human neutrophil function, 287
- prostaglandin $F_{2\alpha}$ modulates responses of single cultured mesangial cells to arginine vasopressin, 195

Cardiovascular disease *see* Heart
Cell differentiation: arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
Cell proliferation
- beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus and its relationship to cytokines, 207
- differential cytotoxic effects of gamma-linolenic acid on MG-63 and HeLa cells, 109
- effects of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
- ω-3 and ω-6 fatty acids and prostaglandin E_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
- inhibitory effects of prostacyclin analogue TFC-132 on aortic neointimal thickening in vivo and smooth muscle cell proliferation in vitro, 245
- suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33

Chemiluminescence of 5,8,11,14-eicosatetraenoic acid is inhibited by catalase or peroxidase, 271
Cholesterol
- enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane A_2, 81
- long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
- prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
- relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101

Cholinergic nerves: prostaglandin E_2 inhibits acetylcholine release in canine but not equine airways, 347
Colitis, trinitrobenzene-induced, role of platelet-activating factor in, 419
Cyclic AMP (cAMP)
- cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
- ω-3 and ω-6 fatty acids and prostaglandin E_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
- laser aggregometer studies ATP release and thromboxane B_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69

Cyclooxygenase
- arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
- effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
- effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457
- influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
- salicylamide reverses the aspirin-antagonistic effect of salicylic acid on rat platelet cyclooxygenase, 363

Cystic fibrosis, defective inhibition by dexamethasone of leukotriene B_4 and C_4 production by leucocytes in, 407
Cytokines: beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus, 207
Cytotoxic effects of gamma-linolenic acid on MG-63 and HeLa cells, 109

D

Dexamethasone: defective inhibition of leukotriene B_4 and C_4 production by leucocytes in patients with cystic fibrosis, 407
Diabetes mellitus
- effect of Iloprost on isolated and transplanted pancreatic islet cells, 257
- erectile dysfunction and, 1
- free fatty acid profiles in the non-obese diabetic mouse: basal serum levels and effects of endocrine manipulation, 125
- insulin-mediated processes in platelets erythrocytes and monocytes/macrophages: effects of essential fatty acid metabolism, 385
- liver lipoxygenase arachidonic acid metabolites in streptozotocin-induced diabetes in rats, 411
- prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
- relationships between the fatty acid status and insulinaemic indexes in obese children, 317

Diet
- beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus and its relationship to cytokines, 207
- caffeine: effect on prostaglandin output from the perfused mesenteric vascular bed of the rat, 415
- different effect of a restricted diet on isolated uteri of ovariectomized and non-ovariectomized rats: influence of indomethacin and prostaglandins, 41
- enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane A_2, 81
- iron fortification in primary school children with and without iron deficiency: effect on fatty acid composition of plasma and erythrocyte membranes, 277
- long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
- suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33
- vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11

Dihomogammalinolenic acid (DGLA): relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
Docosahexaenoic acid (DHA)
- beneficial effect of eicosapentaenoic acid and DHA in the management of systemic lupus erythematosus and its relationship to cytokines, 207
- effects of n-3 polyunsaturated fatty acids on reacylation of arachidonic acid in peritoneal macrophages, 235
- relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101

E

Eicosapentaenoic acid (EPA)
- beneficial effect of EPA and docosahexaenoic acid in the management of systemic lupus erythematosus and its relationship to cytokines, 207
- comparison of the effectiveness of EPA administered as either the free acid or ethyl ester as an anti-cachectic and antitumour agent, 141
- effects of gamma-linolenic acid and EPA on urokinase activity, 121
- effects of n-3 polyunsaturated fatty acids on reacylation of arachidonic acid in peritoneal macrophages, 235
- relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101

5,8,11,14-Eicosatetraenoic acid chemiluminescence is inhibited by catalase or peroxidase, 271
Erectile dysfunction and eicosanoids, 1

Erythrocytes
insulin-mediated processes in platelets erythrocytes and monocytes/macrophages: effects of essential fatty acid metabolism, 385
iron fortification in primary school children with and without iron deficiency: effect on fatty acid composition of plasma and erythrocyte membranes, 277
Etodolac
effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457
Extracorporeal shock-wave lithotripsy in children, role of prostanoids in the complications of, 381

F

Fatty acids
effects of n-3 polyunsaturated fatty acids on reacylation of arachidonic acid in peritoneal macrophages, 235
eicosanoid biosynthesis and bioactivity in aquatic invertebrates, 215
ω-3 and ω-6 fatty acids and prostaglandin E_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
free fatty acid profiles in the non-obese diabetic mouse: basal serum levels and effects of endocrine manipulation, 125
insulin-mediated processes in platelets erythrocytes and monocytes/macrophages: effects of essential fatty acid metabolism, 385
iron fortification in primary school children with and without iron deficiency: effect on fatty acid composition of plasma and erythrocyte membranes, 277
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
peroxidation of *see* Lipid peroxidation
relationship between the fatty acid status and insulinaemic indexes in obese children, 317
relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33
Free radicals
chemiluminescence of 5,8,11,14-eicosatetraenoic acid is inhibited by catalase or peroxidase, 271
inhibitory effect of prostaglandin E_1 on human neutrophil function, 287
platelet-activating factor formation by H_2O_2-stimulated perfused canine carotid arteries, 323
suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33

G

G proteins: cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
Gamma-linolenic acid (GLA)
differential cytotoxic effects of gamma-linolenic acid on MG-63 and HeLa cells, 109
effects of gamma-linolenic acid and eicosapentaenoic acid on urokinase activity, 121
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
Gastrointestinal tract
effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457
inhibition of 15-hydroxy prostaglandin dehydrogenase activity in rabbit gastric antral mucosa by 13-hydroperoxyoctadecadienoic acid, 425
platelet-activating factor mediates trinitrobenzene-induced colitis, 419
Glucocorticoids: defective inhibition by dexamethasone of leukotriene B_4 and C_4 production by leucocytes in patients with cystic fibrosis, 407
Glucose
different effect of a restricted diet on glucose metabolism in isolated uteri of ovariectomized and non-ovariectomized rats: influence of indomethacin and prostaglandins, 41
influence of prostaglandins on glucose transport in isolated rat uterus, 445

H

Haemolytic uraemic syndrome, role of eicosanoids in the pathogenesis of, 75
Heart/heart disease
caffeine: effect on prostaglandin output from the perfused mesenteric vascular bed of the rat, 415
enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane A_2, 81
influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
Histamine: pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
Hormones
free fatty acid profiles in the non-obese diabetic mouse: basal serum levels and effects of endocrine manipulation, 125
see also Insulin; Steroid hormones
13-Hydroperoxyoctadecadienoic acid, inhibition of 15-hydroxy prostaglandin dehydrogenase activity in rabbit gastric antral mucosa by, 425
Hydroxyeicosatetraenoic acid (HETE)
effects of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
liver lipoxygenase arachidonic acid metabolites in streptozotocin-induced diabetes in rats, 411
modulation of the transcellular metabolism of 12(S) HETE by 10–11 reductase activity in cultured rat aortic smooth muscle cells, 187
15-Hydroxy prostaglandin dehydrogenase inhibition in rabbit gastric antral mucosa by 13-hydroperoxyoctadecadienoic acid, 425
Hypercholesterolaemia
enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane A_2, 81
prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
Hypertension: inhaled nitric oxide counterbalances platelet-activating factor-induced pulmonary hypertension in pigs, 357
Hypotension, prostaglandin E_1-induced, spinal cord blood flow during, 173
Hypoxia: prostanoid production in rat isolated atria: influence of acute diabetes, 231

I

Ibuprofen: renal effects of intermittent versus continuous infusion in the primate, 249
Iloprost
effect on isolated and transplanted pancreatic islet cells of, 257
effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
topical treatment of venous leg ulcers with a prostacyclin hydrogel, 203
Immune response
beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus and its relationship to cytokines, 207
effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451

suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33

Inflammation
- beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus and its relationship to cytokines, 207
- effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
- effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457
- highly purified guinea-pig type II pneumocytes have the leukotriene A_4 hydrolase but do not express 5-lipoxygenase activity, 263
- mesothelial cell modulation of pleural repair: thrombin-stimulated mesothelial cells release prostaglandin E_2, 329
- pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
- platelet-activating factor formation by H_2O_2-stimulated perfused canine carotid arteries, 323
- platelet-activating factor mediates trinitrobenzene-induced colitis, 419
- *see also* Non-steroidal anti-inflammatory drugs

Insulin
- influence of prostaglandins on glucose transport in isolated rat uterus, 445
- insulin-mediated processes in platelets erythrocytes and monocytes/macrophages: effects of essential fatty acid metabolism, 385
- relationships between the fatty acid status and insulinaemic indexes in obese children, 317
- *see also* Diabetes mellitus

Invertebrates, aquatic, eicosanoid biosynthesis and bioactivity in, 215

Iron fortification in primary school children with and without iron deficiency: effect on fatty acid composition of plasma and erythrocyte membranes, 277

Ischaemia-reperfusion injury: platelet-activating factor formation by H_2O_2-stimulated perfused canine carotid arteries, 323

J

Joints: effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457

K

Kidney
- effect of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
- effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457
- extracorporeal shock-wave lithotripsy in children, role of prostanoids in the complications of, 381
- laser aggregometer studies ATP release and thromboxane B_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69
- prostaglandin $F_{2\alpha}$ modulates responses of single cultured mesangial cells to arginine vasopressin, 195
- renal effects of intermittent versus continuous infusion of ibuprofen in the primate, 249
- role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75

L

Leukaemia: arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51

Leukotrienes (LTs)
- defective inhibition by dexamethasone of LTB_4 and LTC_4 production by leucocytes in patients with cystic fibrosis, 407
- effects of prostaglandin D_2 lipoxins and LTs on sleep and brain temperature of rats, 87
- extracorporeal shock-wave lithotripsy in children, role of prostanoids in the complications of, 381
- highly purified guinea-pig type II pneumocytes have the leukotriene A_4 hydrolase but do not express 5-lipoxygenase activity, 263
- inhibitory effect of ONO-1078 on specific binding of peptide LTs to human lung crude membrane, 163
- liver lipoxygenase arachidonic acid metabolites in streptozotocin-induced diabetes in rats, 411
- platelet-activating factor mediates trinitrobenzene-induced colitis, 419

Linoleic acid (LA)
- inhibition of 15-hydroxy prostaglandin dehydrogenase activity in rabbit gastric antral mucosa by 13-hydroperoxyoctadecadienoic acid, 425
- long-term effect of dietary fatty acids on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
- relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
- vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11

Lipid peroxidation
- modulation of lipoxidase activity by urokinase-type plasminogen activator, 183
- suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33
- vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11

Lipoxins: effects of prostaglandin D_2 lipoxins and leukotrienes on sleep and brain temperature of rats, 87

Liver
- eicosanoids and hepatic preservation for organ transplantation, 299
- lipoxygenase arachidonic acid metabolites in streptozotocin-induced diabetes in rats, 411

Lung(s)
- effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
- highly purified guinea-pig type II pneumocytes have the leukotriene A_4 hydrolase but do not express 5-lipoxygenase activity, 263
- inhaled nitric oxide counterbalances platelet-activating factor-induced pulmonary hypertension in pigs, 357
- inhibitory effect of ONO-1078 on specific binding of peptide leukotrienes to human lung crude membrane, 163
- inhibitory effect of prostaglandin E_1 on human neutrophil function, 287
- mesothelial cell modulation of pleural repair: thrombin-stimulated mesothelial cells release prostaglandin E_2, 329

Lymphocytes: suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33

M

Macrophages
- effects of n-3 polyunsaturated fatty acids on reacylation of arachidonic acid in peritoneal macrophages, 235
- insulin-mediated processes in platelets erythrocytes and monocytes/macrophages: effects of essential fatty acid metabolism, 385

Muscle(s)
- effects of exogenous and endogenous prostaglandins on the fast phase of contraction of the guinea-pig vas deferens produced by electrical field stimulation, 57
- effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
- inhibitory effects of prostacyclin analogue TFC-132 on aortic neointimal thickening in vivo and smooth muscle cell proliferation in vitro, 245
- modulation of the transcellular metabolism of 12(S) HETE by 10–11 reductase activity in cultured rat aortic smooth muscle cells, 187
- prostaglandin $F_{2\alpha}$ modulates responses of single cultured mesangial cells to arginine vasopressin, 195
- *see also* Bronchoconstriction

N

Nephrotic syndrome, laser aggregometer studies ATP release and

thromboxane B_2 release and cAMP concentration of platelets in, 69
Nervous system
effects of exogenous and endogenous prostaglandins on the fast phase of contraction of the guinea-pig vas deferens produced by electrical field stimulation, 57
effects of prostaglandin D_2 lipoxins and leukotrienes on sleep and brain temperature of rats, 87
prostaglandin E_2 inhibits acetylcholine release from cholinergic nerves in canine but not equine airways, 347
Neutrophils
inhibitory effect of prostaglandin E_1 on human neutrophil function, 287
platelet-activating factor formation by H_2O_2-stimulated perfused canine carotid arteries, 323
Nitric oxide (NO)
effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
inhaled NO counterbalances platelet-activating factor-induced pulmonary hypertension in pigs, 357
Nonshivering thermogenesis: role of prostaglandin E_2 and prostacyclin during simulated birth in utero, 373
Non-steroidal anti-inflammatory drugs (NSAIDs)
effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457
influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
renal effects of intermittent versus continuous infusion of ibuprofen in the primate, 249
salicylamide reverses the aspirin-antagonistic effect of salicylic acid on rat platelet cyclooxygenase, 363

O

Obese children, relationships between the fatty acid status and insulinaemic indexes in, 317
Oestrogen (s)
effect of zearalenone and 17β-oestradiol on prostacyclin and thromboxane production in cell cultures from human umbilical cord veins, 241
oxytocin-prostaglandin interactions during the rat oestrus cycle, 133
synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle: effects of 17-β-oestradiol and progesterone, 47
Oestrus cycle
oxytocin-prostaglandin interactions during the rat oestrus cycle, 133
synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle: effects of 17-β-oestradiol and progesterone, 47
ONO-1078
inhibitory effect on specific binding of peptide leukotrienes to human lung crude membrane, 163
pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
Organ transplantation
effect of Iloprost on isolated and transplanted pancreatic islet cells, 257
eicosanoids and hepatic preservation for organ transplantation, 299
Osteoblast-like cells, effect of vitamin D_3 on prostaglandin E_2 synthesis in, 27
Oxytocin-prostaglandin interactions during the rat oestrus cycle, 133

P

Pancreas: effect of iloprost on isolated and transplanted islet cells, 257
Penis: eicosanoids and erectile dysfunction, 1
Peritoneal macrophages, effects of n-3 polyunsaturated fatty acids on the reacylation of arachidonic acid in, 235
Pertussis toxin: cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
PGE-M (11α-hydroxy-9,15-dioxo-2,3,4,5,20-pentanor-19-carboxy-prostanoic acid), quantification and pharmacokinetics in plasma of, 401
Phospholipase: immunohistologic detection of non-pancreatic PLA_2 (Type II) in human placenta and its possible involvement in normal parturition at term, 19
Placenta
immunohistologic detection of non-pancreatic phospholipase A_2 (Type II) in human placenta and its possible involvement in normal parturition at term, 19
role of prostaglandin E_2 and prostacyclin in nonshivering thermogenesis during simulated birth in utero, 373
Plasmin/plasminogen: effects of gamma-linolenic acid and eicosapentaenoic acid on urokinase activity, 121
Platelet(s)
enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane A_2, 81
influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
insulin mediated processes in platelets erythrocytes and monocytes/macrophages: effects of essential fatty acid metabolism, 385
laser aggregometer studies ATP release and thromboxane B_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75
salicylamide reverses the aspirin-antagonistic effect of salicylic acid on rat platelet cyclooxygenase, 363
vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11
Platelet-activating factor (PAF)
inhaled nitric oxide counterbalances PAF-induced pulmonary hypertension in pigs, 357
PAF formation by H_2O_2-stimulated perfused canine carotid arteries, 323
PAF mediates trinitrobenzene-induced colitis, 419
pharmacological studies of PAF-induced augmentation of response to histamine in guinea-pigs, 95
Pleural repair: thrombin stimulated mesothelial cells release prostaglandin E_2, 329
Pneumocytes: highly purified guinea-pig type II cells have the leukotriene A_4 hydrolase but do not express 5-lipoxygenase activity, 263
Pregnancy
immunohistologic detection of non-pancreatic phospholipase A_2 (Type II) in human placenta and its possible involvement in normal parturition at term, 19
role of prostaglandin E_2 and prostacyclin in nonshivering thermogenesis during simulated birth in utero, 373
Progesterone: effects on synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle, 47
Prostacyclin (prostaglandin I_2)
effect of caffeine on prostaglandin output from the perfused mesenteric vascular bed of the rat, 415
effect of iloprost on isolated and transplanted pancreatic islet cells, 257
effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
effects of zearalenone and 17β-oestradiol on prostacyclin and thromboxane production in cell cultures from human umbilical cord veins, 241
inhibitory effects of analogue TFC-132 on aortic neointimal thickening in vivo and smooth muscle cell proliferation in vitro, 245
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75
role of prostaglandin E_2 and prostacyclin in nonshivering thermogenesis during simulated birth in utero, 373

topical treatment of venous leg ulcers with a prostacyclin hydrogel, 203
Prostaglandin D_2 (PGD_2)
effect of chronic REM sleep deprivation on pituitary hypothalamus and hippocampus PGE_2 and PGD_2 biosynthesis in the mouse, 369
effects of PGD_2 lipoxins and leukotrienes on sleep and brain temperature of rats, 87
synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle: effects of 17-β-oestradiol and progesterone, 47
Prostaglandin E_1 (PGE_1)
eicosanoids and erectile dysfunction, 1
inhibitory effect of PGE_1 on human neutrophil function, 287
spinal cord blood flow during PGE_1-induced hypotension, 173
urinary metabolite PGE-M, quantification and pharmacokinetics in plasma of, 401
Prostaglandin E_2 (PGE_2)
cellular signalling of PGE_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
effect of chronic REM sleep deprivation on pituitary hypothalamus and hippocampus PGE_2 and PGD_2 biosynthesis in the mouse, 369
effect of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
effect of etodolac on PGE_2 biosynthesis active oxygen generation and bradykinin formation, 457
effects of exogenous and endogenous prostaglandins on the fast phase of contraction of the guinea-pig vas deferens produced by electrical field stimulation, 57
effects of vitamin D_3 on PGE_2 synthesis in oesteoblast-like cells, 27
ω-3 and ω-6 fatty acids and PGE_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
mesothelial cell modulation of pleural repair: thrombin stimulated mesothelial cells release PGE_2, 329
platelet-activating factor mediates trinitrobenzene-induced colitis, 419
PGE_2 inhibits acetylcholine release from cholinergic nerves in canine but not equine airways, 347
prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
role of PGE_2 and prostacyclin in nonshivering thermogenesis during simulated birth in utero, 373
role of prostanoids in the complications of extracorporeal shock wave lithotripsy in children, 381
synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle: effects of 17-β-oestradiol and progesterone, 47
urinary metabolite PGE-M, quantification and pharmacokinetics in plasma of, 401
6-keto-prostaglandin $F_{1\alpha}$
platelet-activating factor mediates trinitrobenzene-induced colitis, 419
prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
Prostaglandin $F_{2\alpha}$ ($PGF_{2\alpha}$)
effects of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
$PGF_{2\alpha}$ modulates responses of single cultured mesangial cells to arginine vasopressin, 195
Prostaglandin H synthase, caffeic acid oxidation and, 337
Prostaglandin H_2 (PGH_2): synthesis and evaluation of pyrazolotriazinyl alkanoic acids as thromboxane A_2 biosynthesis inhibitors, 157
Prostaglandin receptors
cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
effects of exogenous and endogenous prostaglandins on the fast phase of contraction of the guinea-pig vas deferens produced by electrical field stimulation, 57
Protein kinase(s)
cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
effects of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
effects of vitamin D_3 on prostaglandin E_2 synthesis in osteoblast-like cells, 27
ω-3 and ω-6 fatty acids and PGE_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
Pyrazolotriazinyl alkanoic acids: synthesis and evaluation as thromboxane A_2 biosynthesis inhibitors, 157

R

Respiratory tract
effect of etodolac on antigen-induced contractions of the trachea and lung parenchyma of guinea-pigs, 451
highly purified guinea-pig type II pneumocytes have the leukotriene A_4 hydrolase but do not express 5-lipoxygenase activity, 263
inhaled nitric oxide counterbalances platelet-activating factor-induced pulmonary hypertension in pigs, 357
inhibitory effect of ONO-1078 on specific binding of peptide leukotrienes to human lung crude membrane, 163
inhibitory effect of prostaglandin E_1 on human neutrophil function, 287
mesothelial cell modulation of pleural repair: thrombin stimulated mesothelial cells release prostaglandin E_2, 329
pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
prostaglandin E_2 inhibits acetylcholine release from cholinergic nerves in canine but not equine airways, 347
Retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, arachidonic acid metabolism by nuclei of, 51
Ryanodine: effect of caffeine on prostaglandin output from the perfused mesenteric vascular bed of the rat, 415

S

Salicylamide reverses the aspirin-antagonistic effect of salicylic acid on rat platelet cyclooxygenase, 363
Sex cycle *see* Oestrus cycle
Signal transduction
cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
differential cytotoxic effects of gamma-linolenic acid on MG-63 and HeLa cells, 109
eicosanoids in aquatic invertebrates, 215
ω-3 and ω-6 fatty acids and PGE_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
Sleep
effect of chronic REM sleep deprivation on pituitary hypothalamus and hippocampus PGE_2 and PGD_2 biosynthesis in the mouse, 369
effects of prostaglandin D_2 lipoxins and leukotrienes on sleep and brain temperature of rats, 87
Smoking
erectile dysfunction and, 1
relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
Sodium: cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
Spinal cord blood flow during prostaglandin E_1-induced hypotension, 173
Spleen: effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
Steroid drugs: defective inhibition by dexamethasone of leukotriene B_4 and C_4 production by leucocytes in patients with cystic fibrosis, 407
Steroid hormones
effects of zearalenone and 17β-oestradiol on prostacyclin and thromboxane production in cell cultures from human umbilical cord veins, 241
oxytocin-prostaglandin interactions during the rat oestrus cycle, 133
synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle: effects of 17-β-oestradiol and progesterone, 47
Stomach
effect of etodolac on prostaglandin E_2 biosynthesis active oxygen generation and bradykinin formation, 457

inhibition of 15-hydroxy prostaglandin dehydrogenase activity in rabbit antral gastric mucosa by 13-hydroperoxyoctadecadienoic acid, 425
Sulprostone
cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
effects of exogenous and endogenous prostaglandins on the fast phase of contraction of the guinea-pig vas deferens produced by electrical field stimulation, 57
Surgery
eicosanoids and hepatic preservation for organ transplantation, 299
spinal cord blood flow during prostaglandin E_1-induced hypotension, 173
Systemic lupus erythematosus (SLE): beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of SLE and its relationship to cytokines, 207

T

Temperature
effects of prostaglandin D_2 lipoxins and leukotrienes on sleep and brain temperature of rats, 87
role of prostaglandin E_2 and prostacyclin in nonshivering thermogenesis during simulated birth in utero, 373
Thrombin-stimulated mesothelial cells release prostaglandin E_2 in pleural repair, 329
Thrombosis
enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane A_2, 81
laser aggregometer studies ATP release and thromboxane B_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69
role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75
vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11
Thromboxane(s)
arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
effects of zearalenone and 17β-oestradiol on prostacyclin and thromboxane production in cell cultures from human umbilical cord veins, 241
enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for TXA_2, 81
influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
laser aggregometer studies ATP release and TXB_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
pharmacological studies of platelet-activating factor-induced augmentation of response to histamine in guinea-pigs, 95
platelet-activating factor mediates trinitrobenzene-induced colitis, 419
prostacyclin TXA_2 and atherosclerosis in young hypercholesterolaemic swine, 293
prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75
TXA_2 biosynthesis inhibitors: synthesis and evaluation of pyrazolotriazinyl alkanoic acids, 157
vitamin E deficiency increases serum TXA_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11
Thromboxane synthetase
arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
thromboxane A_2 biosynthesis inhibitors: synthesis and evaluation of pyrazolotriazinyl alkanoic acids, 157
T-lymphocytes
beneficial effect of eicosapentaenoic and docosahexaenoic acids in the management of systemic lupus erythematosus and its relationship to cytokines, 207
suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33
Trachea: effect of etodolac on antigen-induced contractions in guinea-pigs of, 451
Transplantation
effect of iloprost on isolated and transplanted pancreatic islet cells, 257
eicosanoids and hepatic preservation, 299
Tumour(s)
arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
differential cytotoxic effects of gamma-linolenic acid on MG-63 and HeLa cells, 109
effects of gamma-linolenic acid and eicosapentaenoic acid on urokinase activity, 121
eicosapentaenoic acid as an anticachectic and antitumour agent: comparison of the free acid or ethyl ester, 141
ω-3 and ω-6 fatty acids and PGE_2 stimulate the growth of normal but not tumour mouse mammary epithelial cells: evidence for alterations in the signalling pathways in tumour cells, 437
modulation of lipoxidase activity by urokinase-type plasminogen activator, 183
suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33

U

Ulcers
inhibition of 15-hydroxy prostaglandin dehydrogenase activity in rabbit antral gastric mucosa by 13-hydroperoxyoctadecadienoic acid, 425
topical treatment of venous leg ulcers with a prostacyclin hydrogel, 203
Umbilical cord veins, effects of zearalenone and 17β-oestradiol on prostacyclin and thromboxane production in cell cultures from, 241
Urinary metabolite of E-series prostaglandins: quantification and pharmacokinetics in plasma of PGE-M, 401
Urinary tract
cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
effects of endogenously produced arachidonic acid metabolites on rat mesangial cell proliferation, 177
laser aggregometer studies ATP release and thromboxane B_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69
prostaglandin $F_{2\alpha}$ modulates responses of single cultured mesangial cells to arginine vasopressin, 195
role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75
role of prostanoids in the complications of extracorporeal shock wave lithotripsy in children, 381
Urokinase
effects of gamma-linolenic acid and eicosapentaenoic acid on urokinase activity, 121
modulation of lipoxidase activity by urokinase-type plasminogen activator, 183
Uterus
different effect of a restricted diet on isolated uteri of ovariectomized and non-ovariectomized rats: influence of indomethacin and prostaglandins, 41
influence of prostaglandins on glucose transport in isolated rat uterus, 445
oxytocin-prostaglandin interactions during the rat oestrus cycle, 133
synthesis and release of prostaglandins D_2 and E_2 by rat uterine tissue throughout the sex cycle: effects of 17-β-oestradiol and progesterone, 47

V

Vas deferens, guinea-pig: effects of exogenous and endogenous prostaglandins on the fast phase of contraction produced by electrical field stimulation, 57

Vascular system
effect of caffeine on prostaglandin output from the perfused mesenteric vascular bed of the rat, 415
effects and molar potency of iloprost U46619 and sodium nitroprusside on capsular and vascular smooth muscle of the isolated perfused canine spleen, 431
effects of zearalenone and 17β-oestradiol on prostacyclin and thromboxane production in cell cultures from human umbilical cord veins, 241
enhancement of thrombotic arterial occlusion following cholesterol feeding in the guinea-pig: a role for thromboxane, A_2, 81
influence of various doses of aspirin (in vivo) on platelet arachidonic acid metabolism (ex vivo) and function, 63
inhaled nitric oxide counterbalances platelet-activating factor-induced pulmonary hypertension in pigs, 357
inhibitory effects of prostacyclin analogue TFC-132 on aortic neointimal thickening in vivo and smooth muscle cell proliferation in vitro, 245
laser aggregometer studies ATP release and thromboxane B_2 release and cAMP concentration of the platelets in nephrotic syndrome, 69
long-term effect of dietary gamma-linolenic acid on plasma lipids platelet aggregation thromboxane formation and prostacyclin production, 311
modulation of the transcellular metabolism of 12(S) HETE by 10–11 reductase activity in cultured rat aortic smooth muscle cells, 187
platelet-activating factor formation by H_2O_2-stimulated perfused canine carotid arteries, 323
prostacyclin thromboxane A_2 and atherosclerosis in young hypercholesterolaemic swine, 293
prostanoid production in hypoxic rat isolated atria: influence of acute diabetes, 231
relationship between plasma essential fatty acids and other potential risk factors for cardiovascular disease, 101
role of eicosanoids in the pathogenesis of haemolytic uraemic syndrome, 75
topical treatment of venous leg ulcers with a prostacyclin hydrogel, 203
vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11
see also Blood pressure
Vasopressin
cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147
prostaglandin $F_{2\alpha}$ modulates responses of single cultured mesangial cells to arginine vasopressin, 195
Venous leg ulcers: topical treatment with a prostacyclin hydrogel, 203
Vitamin(s)
arachidonic acid metabolism by nuclei of a retinoic acid- or vitamin D_3-differentiated human leukaemia cell line HL-60, 51
effect of vitamin D_3 on prostaglandin E_2 synthesis in osteoblast-like cells, 27
suppression of human T-cell growth in vitro by cis-unsaturated fatty acids: relationship to free radicals and lipid peroxidation, 33
vitamin E deficiency increases serum thromboxane A_2 platelet arachidonate and lipid peroxidation in male Sprague-Dawley rats, 11

W

Water transport: cellular signalling of prostaglandin E_2 and its selective receptor analogue sulprostone in rabbit cortical collecting duct, 147

Z

Zearalenone and 17β-oestradiol, effects on prostacyclin and thromboxane production in cell cultures from human umbilical cord veins of, 241

PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1994) 51, 471–473
